

ERASABLE TRAY LABELS**ABSTRACT OF THE DISCLOSURE**

Apparatuses, methods, and systems are disclosed for mounting an erasable
10 label on a tray or container without adhesive. In one embodiment, a label assembly
is disclosed having an erasable writing surface mounted upon a semi-rigid core
having a slot sized and shaped to fit on a side wall of a container. The writing
surface may include a pair of opposing erasable tablets mounted on opposing sides of
the core. The writing surface may be constructed to receive temporary dry-erase ink,
15 water-soluble ink, or magnetic labels. The markings may be protected from
accidental erasure by an elongate projection or rim, a removable transparent film, or
the like. A method of using a label assembly is also disclosed.

This Abstract is provided to comply with the rules and submitted with the
understanding that it will not be used to interpret or limit the scope or meaning of the
20 claims.
